

**“Fome-Cor has so many benefits . . . it’s the best way I know to gain satisfied customers with fewer service calls. But don’t listen to me. Talk to my associates.”**

**Bob Bross**

## **What Bropfs' associates say about Fome-Cor:**

**Harland Bross** — “The best advertising we’ve ever had is referrals from customers who have been completely satisfied with lower fuel costs, quieter homes and an almost total elimination of roof leaks. There’s no question about it. These are the benefits we get from Fome-Cor.”

**Joyce Bross** — “When I tell customers how much Fome-Cor will save them on heating and cooling bills, they are amazed. And believe me, with the cost of fuel skyrocketing, that sells homes!”

**John Cross** — “Fome-Cor cuts service calls drastically. We get practically no complaints about drafts, leaks or noise. In a nutshell, that’s how Fome-Cor makes us money — satisfied customers.”

**‘Rip’ Matheny** — “You can’t install siding tight enough so air won’t penetrate and leak right on through the insulation. That’s why Fome-Cor cuts fuel bills. It almost completely eliminates air infiltration. I’ve lived in mobile homes for almost 20 years and I know you need both insulation and Fome-Cor. But if I had to make a choice, I’d take the Fome-Cor.”
